Release Notes

# Overview

## About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

## What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

## Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting [support@mambu.com](mailto:support@mambu.com) or your account manager.

## [1. New Features](#)

## 1. Bug Fixes

### **[CORE-1326] - Interest expected in the schedule not calculated correctly on dynamic loans with exclusive taxes and prepayments**

For dynamic loan products the interest expected was not calculated correctly when using exclusive taxes and prepayments. This bug fix solves this issue and brings the correct calculation of interest expected for each installment.

### **[OPS-36742] - Force MYSQL 5.7.22**

The MySQL version has been updated on the AWS repositories and this fix comes to enforce that all instances use the new version of the software.

Production release date: Friday, 19th of October, 2018
