Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

Contents

1. Bug Fixes

[\[CUS-1438\] - Upload causes random exception while storing temp file in internal S3 filestore](#)

1. Bug Fixes

[CUS-1438] - Upload causes random exception while storing temp file in internal S3 filestore

When uploading an attachment on a client or loan/deposit accounts, a random exception was thrown. With this fix, we cleaned up some processes to remove the issue and added more logging on the handler.

Production release date: 22 November 2018
