

MAMBU

9.25.1

Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

Contents

[1. Important Note](#)

[2. Bug fixes](#)

[\[CUS-1975\] - Revert Fix Which Led to Deadlock Number Increase](#)

1. Important Note

Mambu V9.25.1 contains the initial V9.25 build, before the announced rollback, plus a fix for the increased deadlocks that motivated us to perform a rollback. For traceability, please find the [V9.25 Release Notes here](#) and the additional fixes described below.

2. Bug fixes

[CUS-1975] - Revert Fix Which Led to Deadlock Number Increase

With this bug fix we have reverted the issue that triggered an increase in the number of deadlocks overall. We are actively working on reducing the deadlocks occurrence rate, with more fixes to follow.

Sandbox release: Monday, 12th of August
Production release: Tuesday, 13th of August
