

MAMBU

4.6.15

Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

1. Bug Fixes

[CORE-7] - Wrong account state after undoing pay off or write off actions for a Locked (Capping) account

For loan accounts in active locked (or locked capping) state after reversing a repayment transaction that triggers installments to become late, the account state was unchanged. In this release, Mambu fixed this inconsistency by updating the account state correctly after the repayment transaction is reversed. This fix impacts the scenario when an user reverses a repayment transaction that was automatically logged when an in arrears locked account was paid off (the account goes currently in active locked (or locked capping) state). With this release, when reversing this repayment transaction, the account will pass in active in arrears locked state.

Sandbox release date: Tuesday, 7h of November, 2017
