5.15

Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

1. Bug Fixes

[DEP-267]- Second transaction in a freshly activated account returns
BACKDATE_BEFORE_ACTIVATION

1. Bug Fixes

[DEP-267] - Second transaction in a freshly activated account returns BACKDATE_BEFORE_ACTIVATION

When two transactions were posted in the same time (milliseconds), we've got an error saying that the transaction cannot be posted before activation. This was happening because the time for the first transaction was rounded to the next second. In V5.15 Mambu fixed this problem and now we are rounding to the nearest second the transaction date.

Production release date: Wednesday, 21st of March, 2018
