

MAMBU

5.16

Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

1. Bug Fixes

[CORE-620] - Apply capping algorithm when unlocking a loan account

When unlocking a manual locked loan account with “Apply accrued charges before lock (capping)” option enabled, the full interest amount accrued while the account was locked was applied without taking into consideration the capping limit and does not changes the state of the account into “In Arrears Locked Capping”.

In V5.16, Mambu added an improvement when unlocking a loan account with “Apply accrued charges before lock (capping)” option enabled, in which searches the day in the past when the interest accrued can be applied in order to not exceed the capping limit and changes the loan account state into “In Arrears Locked Capping”.

Production release date: Monday, 02nd of April, 2018
