Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

[CORE-89 - Pay the amounts of the schedule in accordance with the Payment allocation order defined at the product level when posting a prepayment for horizontal loan accounts](#)

1. Bug Fixes

[CORE-89] - Pay the amounts of the schedule in accordance with the Payment allocation order defined at the product level when posting a prepayment for horizontal loan accounts

Now, when posting a prepayment for a loan account the payed amounts are not allocated in accordance with the horizontal repayment allocation order defined at product level.

In V5.21, Mambu fixed this issue and when posting a prepayment for a loan account the payed amounts will be done accordingly with the horizontal repayment allocation order defined at product level. If the order is Fees, Penalties, Interest and Principal, the prepayment will be allocated first to the fees and if there is a remaining amount will be allocated to the penalties and so on.

Production release date: Wednesday, 18th of April 2018
