## 6.5

Release Notes

# Overview

## About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

## What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

## Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting [support@mambu.com](mailto:support@mambu.com) or your account manager.

## Contents

### 1. Bug Fixes

[\[DEP-359\] - Overdraft limit can be adjusted on dormant deposit accounts through the UI but not by API](#)

[\[DEP-360\] - Reversing a fee applied on Overdraft Account with zero Available Balance doesn't correctly update the Available Balance and Fees Due fields](#)

## 1. Bug Fixes

### **[DEP-359] - Overdraft limit can be adjusted on dormant deposit accounts through the UI but not by API**

When an overdraft account in Dormant state, no withdrawal can be made from API. In V6.5, Mambu fixed this issue and now Withdrawal transaction can be made via API, even if the account is in Dormant state.

### **[DEP-360] - Reversing a fee applied on Overdraft Account with zero Available Balance doesn't correctly update the Available Balance and Fees Due fields**

For an account with overdraft and 0 Available balance, when applying and then reversing the fee, the Available Balance and Fees Due fields were not properly updated and the fee amount was still returned for both. Mambu has corrected this behaviour and balances are now properly updated to 0.

Sandbox release date: Friday, 15th of June, 2018

Production release date: Friday, 15th of June, 2018
