

MAMBU

7.1

Release Notes

Overview

About the Release Notes

The Release Notes are a comprehensive user guide for the latest release of Mambu. The Mambu Release Notes give you everything you need to get up and running with the new features and enhancements in the latest release.

What's Included in the Release Notes

For every new major enhancement, the Release Notes provide:

- A high-level description of the functionality
- Implementation tips to help you get started with setup and administration
- Tips to help you maximize the benefits

Beyond the major new features, there may be additional enhancements or functional changes which will be included along with a brief description.

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with Mambu. To continually improve the service we deliver to you, we want to know what works and what doesn't. Let us know by contacting support@mambu.com or your account manager.

Contents

1. Bug Fixes

[\[CORE-1124\] - Cannot enter bulk repayments due to serialization on custom fields on transactions](#)

1. Bug Fixes

[CORE-1124] - Cannot enter bulk repayments due to serialization on custom fields on transactions

When working with custom fields on transactions and bulk repayments due within the next month, when selecting a branch and entering a repayment on one of the due instalments that also has a custom field in use, an error 500 occurred on the UI. We have now fixed this issue and repayments are entered successfully.

Sandbox release date: Tuesday, 7th of August, 2018

Production release date: Wednesday, 8th of August, 2018
