

2011/2017 BETA – Regional Emissions Inventory:
Response to Stakeholder Comments

MARAMA held a Beta Inventory Stakeholder Outreach webinar in June 2016 which provided background about the inventory and the procedure for submitting comments. The table below summarizes the comments that were received during the comment period and MARAMA's actions in response to the comments.

State	Comment	Action
MA	2011 to 2017 growth projections for Boston Logan Airport too high	Re-projected 2017 emissions using revised factors provided by MA DEP
NC	2017 Cliffside EGU PM10 emissions too high	ERTAC group revised the 2017 SESARM ERTAC inventory file with emissions provided by NC DENR.
PA	RACT II NOx reductions not included in 2017 inventory	Included RACT II reductions in re-projection of 2017 NOx emissions for affected sources in the cement, glass melting, and oil & gas sectors.
TN	Two facilities have units that are converting from coal to gas, conversions happening unit by unit from 3/31/2014 to 6/30/2018	Included relevant conversions in 2017 emissions re-projection for the affected facilities
