

Blur Festival is a large event broken into small groups which will allow you to enjoy the experience of learning photography with people of your skill level.

All of our Speakers will be presenting many times each day in a mixture of lectures, workshops and guest appearances on the main stage. A full list of appearance times will be available as part of your check-in pack at the event and you will have heaps of time to plan your Blur Experience to ensure you get to see your favourites.

Shooting Booths are broken into 35 minute sessions and reset every 45 minutes to ensure everyone has equal opportunity to enjoy the areas.

We recommend our two day all access pass as there are too many speakers to see in just one day.
