

# Case-Based Learning: Keeping it Real!

Learning 2018

# Our Learning Story

## Previously...

1. Learn material
2. Memorize it
3. Apply it

## Now...

1. Explore a situation
2. Identify what you think you need to know
3. Apply your learning
4. Reflect

# Characteristics of CBL

- Promotes collaborative learning / connects peers
- Encourages inquiry and reflection
- Creates relevant context
- Integrates knowledge and practice
- Learner-directed
- Scalable based on size of learner audience
- Adaptable based on learner audience (age, scope of practice, etc...)
- Can be facilitated over single or multi sessions
- Offers similar benefits to other small group interaction (communication, listening, understanding, etc...)

# Activity

## Create your own case-study!

- ✓ What is the key issue?
  - Causes / impact /effect
  - Secondary issue(s)
  
- ✓ How you will set the scene?
  - Background info
  - Characters
  - Environment / time of day
  - Specific language
  
- ✓ What happens?
  
- ✓ Are there any constraints you want to include?
  
- ✓ What are some possible solutions?
