

Radiologic Technology

Associate in Science

DIVISION OF HEALTH SCIENCES

Fall Semester Start

The radiologic technologist provides diagnostic imaging services to patients in hospitals, clinics, private imaging centers, and medical offices. Comprehensive, rigorous, multi-faceted, and interrelated experiences in the classroom, laboratory, and clinical settings are designed to prepare the student to enter the field as a competent, compassionate professional. The successful program graduate will be capable of assuming many responsibilities associated with meeting each patient's needs, satisfying the requirements associated with the performance of high-quality imaging exams, and assuming accountability for the radiation safety of the patient as well as oneself. Graduates of the program are eligible to seek Massachusetts State Licensing and take the American Registry of Radiologic Technologists Examination.

The Radiological Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology.

ADMISSION REQUIREMENTS

Admission to the Radiologic Technology program is competitive. Students seeking admission to the Radiologic Technology Program will be evaluated by GPA and total number of college-level credits completed at MassBay. Once the selected students have met the minimum requirements of GPA, admission is based on a core GPA point ranking system. Though core sciences courses can be taken concurrently, consideration will be given to students who have already completed all core science courses as well as college level algebra. Priority for admission is given to current MassBay students and to those applicants having the highest point rating (core GPA) of the core science classes. Applicants must also meet all other required course prerequisites for the program. Minimum eligibility for admissions to this program includes:

- High School diploma or equivalent, or Associate Degree or higher
- MassBay Placement into Freshman English I (EN 101) or completion of Fundamentals of Composition II (EN 098) with a grade of C or higher.
- MassBay Placement into College Algebra (MA 102)/Pre-Calculus Mathematics (MA 104) or completion of Intermediate Algebra (MA 098) with a grade of C or higher.
- Successful completion of Reading Assessment Test with a score of 24.6 or higher.

Upon acceptance into the Radiologic Technology program, students are required to attend a New Student (program-specific) Orientation. Students accepted to the program are required to verify certain immunization and health records and submit documentation thereof by published deadlines which are program-specific and determined by clinical rotation start dates. A complete list of the required immunizations can be found on Division of Health Sciences' web pages of the MassBay website by clicking the link, "[Health and Background Check Requirements](#)." Immunization requirements are in accordance with clinical site requirements and Massachusetts state law. If the student does not meet the initial published deadline, s/he will not attend the clinical rotation.

Proof of CPR certification is required for the program. The Healthcare Provider Card (from the American Heart Association) and the CPR/AED for the Professional Rescuer Card (from the American Red Cross) are the only types of CPR certification that meet this requirement.

The student must complete the CORI (Criminal Offender Record Information) form to authorize a search of conviction and pending criminal case information under Standard Required Level I by the DCJIS (Department of Criminal Justice Information Services). The student must also complete the SORI (Sex Offender Registry Information) form. The CORI and SORI completion process will occur prior to the beginning of clinical/practicum experiences. If a CORI and SORI completion process will occur prior to the beginning of clinical/practicum experiences.

If a CORI and/or SORI Report is returned with a finding(s), it may or may not prohibit progression in a Health Sciences Program. A National County Criminal Background check will be conducted as a part of the student's completion of the clinical requirements.

COURSE	COURSE TITLE	CREDITS
<i>First Year</i>	<i>Semester 1</i>	
BI 215*	Anatomy and Physiology I	4
CT 100	Critical Thinking	3
EN 101	English Composition I	3
RT 101	Radiographic Positioning I	3
RT 111	Radiographic Technique I	3
RT 121	Clinical Education I	3
	credits:	19
<i>First Year</i>	<i>Semester 2</i>	
BI 217	Anatomy and Physiology II	4
RT 102	Radiographic Positioning II	3
RT 112	Radiographic Technique II	3
RT 122	Clinical Education II	3
RT 131	Radiographic Physics	4
	credits:	17
<i>First Year</i>	<i>Summer</i>	
RT 123	Clinical Education III	6
	credits:	6
<i>Second Year</i>	<i>Semester 1</i>	
CS 100	Computers and Technology	3
EN 102	English Composition I	3
RT 203	Radiographic Positioning III	3
RT 213	Radiobiology and Radiation Protection	2
RT 214	Radiographic Technique III	2
RT 221	Clinical Education IV	4
	credits:	17
<i>Second Year</i>	<i>Semester 2</i>	
RT 216	Medical and Surgical Diseases	3
RT 217	Advanced Radiographic Technology	3
RT 222	Clinical Education V	4
	Social Science Elective	3
	Humanities Elective	3
	Humanities or Social Science Elective	3
	credits:	19
	Total Credits:	78

Applicants to the Radiologic Technology program are required to attend a recent information session. Times and dates for these sessions can be located at [Information Session Schedule](#). More information is available on the [Division of Health Sciences pages](#) on the MassBay website.

PROGRAM FOOTNOTES

Humanities Electives: Art, Communications, English (EN 103 or higher), Film, Foreign Language, Humanities, Literature, Music, Oral Communication, Philosophy, Photography, Sign Language, Theater Arts,

Social Science Electives: Anthropology, Economics, Geography, Government, History, Law, Psychology, Sociology

*Prerequisite General Biology I (BI 101) with a grade of C or higher in the last five years.

A grade of C or higher is required in all Radiologic Technology (RT) and science courses.

Quantitative skills is a MassBay graduation competency for associate degree programs. Prior to graduation, students must demonstrate this competency by completing a 100-level math course (not MAC); or placing into a 200-level mathematics course.
