Accounting

Associate in Science

DIVISION OF BUSINESS & PROFESSIONAL STUDIES

This professional program serves two purposes. First, it prepares students for entry-level positions in accounting including accounts receivable, accounts payable, bookkeeping, and as junior accountants and auditors. Second, it prepares students to transfer to four-year colleges to continue their education. Interested students are on track to take the CPA examination after fulfilling the more advanced course requirements at a transfer institution.

Upon successful completion, the Associate in Science Degree in Accounting is awarded.
