

BEST EVER Record Storage Vaults

We offer the most cost effective and efficient solution to your record storage needs.

STOP spending a fortune for record storage and retrieval. Keep full control of your records on site or off site. Our vaults are fork-liftable, so you can move them at any time.

Vaults can be stored outside in any weather. You can be confident that your records are safe from the elements. The vaults have an insulated roof, and vapor barrier system to prevent moisture buildup within the container.

The vault is manufactured entirely from 18 ga. G90 galvanized steel. They come standard with a high security door bar lock and lever mechanism that is designed to accept any standard lock. Heavy-duty hinges and tamper proof hardware provide additional security.

A heavy duty shelving system is included with your vault. You have easy access to any box at any time. A variety of different sizes are available from 15 box in-office to 156 box outdoor versions.
