For a complete kill list visit our website:

[www.VitalEnvironmentalSolutions.com](http://www.VitalEnvironmentalSolutions.com)

**\*Kills 99.999% of bacteria including E.coli, Salmonella in less than 60 sec.**

## VITAL OXIDE FOR FASTER & HEALTHIER FOOD PROCESSING DISINFECTION

### SIMPLE TO USE

Disinfect your entire facility in minutes using our unique 360° application methodology for 100% surface coverage even in hidden and hard to reach areas. **VITAL OXIDE** kills 99.999% of deadly bacteria and viruses. There is no need to wipe or rinse after spraying which saves you time and money.

Harmful pathogens such as E. Coli and Salmonella can cause food-borne illness with the potential of affecting the mass consumer market. Our NO-TOUCH disinfection technology kills those pathogens and reduces cross-contamination. **VITAL OXIDE** is Health Canada approved.

### A SAFER SOLUTION

**VITAL OXIDE** is environmentally friendly, it does not harm human health, pets & animals, aquatic life or the environment, making it excellent to use on all surfaces.

**VITAL OXIDE** has no VOCs, is 100% Biodegradable, Fragrance Free, Hypo-Allergenic, Non-Irritating to skin, and Non-Corrosive. It is NSF certified (D2) which means it is approved for commercial use on all food contact surfaces. **VITAL OXIDE** will not leave a residue behind or alter the taste of foods on sanitized surfaces. Experience a healthier way to disinfect with **VITAL OXIDE**.
