

PA MEDIA TALKING POINTS

AUGUST 2025

WHAT IS PICKLEBALL?

Pickleball is a paddle and ball sport with a perfect balance of court dimensions, rules and equipment to afford all skill levels and age groups, enjoyment and success on the court.

Using a paddle and plastic wiffle ball, played on a hard surface indoors or outdoors, the game is a combination of tactical shots, patience, and easy to learn strokes, which encourages an inclusive play environment with no need for modifications or adaptations to cater for gender, ability or age differences.

Pickleball is both fun and challenging with a combination of long rallies and a blend of soft and rapid fire shots; where the best athlete must earn their points not purely by athleticism, power and speed, but also through the use of positioning, patience, tactics and touch.

Finally, pickleball and the sense of community achieved through pickleball, provides connection, social, mental and physical well being benefits; which are just some of the reasons players are passionately embracing this sport at such a rapid rate both in Australia and globally.

Note: we would like to acknowledge Mike Hess for his insightful article [The Perfect Balance](#) for providing much of the information in this description of pickleball.

ABOUT PICKLEBALL AUSTRALIA

We've held the vision for pickleball in Australia since the inception of play down under.

We've built a movement – long before others noticed things were moving. Fuelled by passion and community, We've built pathways and partnerships, locally and globally. We've transformed unused spaces, dinked in driveways whilst ushering in a new area of facility development, and unstoppable membership growth.

We've provided governance, oversight & integrity whilst protecting and nurturing the true spirit and outrageous fun of pickleball. We've fostered growth in participation, volunteering, grassroots, social and elite play.

It was tough to take a nation from “What on earth is pickleball?” to “I LOVE pickleball,” but we did it.

We are the heartbeat of this sport in Australia, a diverse and active community supported by robust governance, and professionalism that extends from the very grass roots to the growing elite levels of the sport.

We are the home of Australian pickleball.

Pickleball Australia

WHY THE NAME?

In the summer of 1965, pickleball was founded by Joel Pritchard, Bill Bell and Barney McCallum on Bainbridge Island, Washington. Within days, Joan Pritchard had come up with the name “pickle ball”—a reference to the thrown-together leftover non-starters in the “pickle boat” of crew races. Many years later, as the sport grew, a controversy ensued when a few neighbors said they were there when Joan named the game after the family dog, Pickles. Joan and the Pritchard family have held fast for decades that the dog came along a few years later and was named after the game.

It’s an undisputed fact that pickleball began, and was also named, in the summer of 1965 by Joan Pritchard. If Pickles was around then, the dog story could be true. If Pickles wasn’t born until after 1965, the dog story would be confirmed as just a funny newspaper interview hoax—later confessed by Joel Pritchard.

Proof of when Pickles was born could help resolve the two-story name debate. As the official magazine of pickleball, we decided to dig up the past and report the truth, regardless of the venerable feathers being ruffled. We looked for dog records, uncovered photos, and interviewed several people who were there from 1965-1970. Based on evidence, we learned that the dog was born in 1968—three years after pickleball was first played and named. In other words, the Pritchard family story stands true that pickleball was not named after the dog, but rather in reference to the local pickle boat races.
