

DRAG FEEDER SPARE PARTS

IMPORTANT INFORMATION:

It is recommended that you keep certain replacement parts at your facility. These parts will be available in the event of a breakdown and will also be available to perform any repairs that must be made as a result of regularly scheduled maintenance checks. **McLanahan Corporation** stocks a wide variety of commonly used components; however, storing these parts at your facility, will eliminate the expense of air-freighting critical parts that may be required during a breakdown situation. Contact the Parts Department at **McLanahan Corporation** for price and availability of all parts for your **McLanahan** equipment.
