

COTTON WEEKLY EXPORT REPORT

USA Upland and Pima Export Sales and Shipments for Week Ending September 9, 2021

- Net current crop sales were 294,390 running bales. Net current crop PLUS new crop sales were 294,390 running bales.
- Shipments were 240,570 running bales, which was 116% of expected seasonally-adjusted pace.
- Current PLUS new crop sales were down 39% from last week and down 7% from the 4-week average.
- There are 46 weeks remaining in the 2021/22 marketing year.
- To ship the USDA estimate of 15,500,000 (480 lb.) bales for 2021/22 crop, the U.S. should average current year sales of 214,000 running bales per week, and needs to average shipments of 298,000 running bales per week.
- Sales were 140% of the desired weekly average. Shipments were 80% of the needed weekly average.

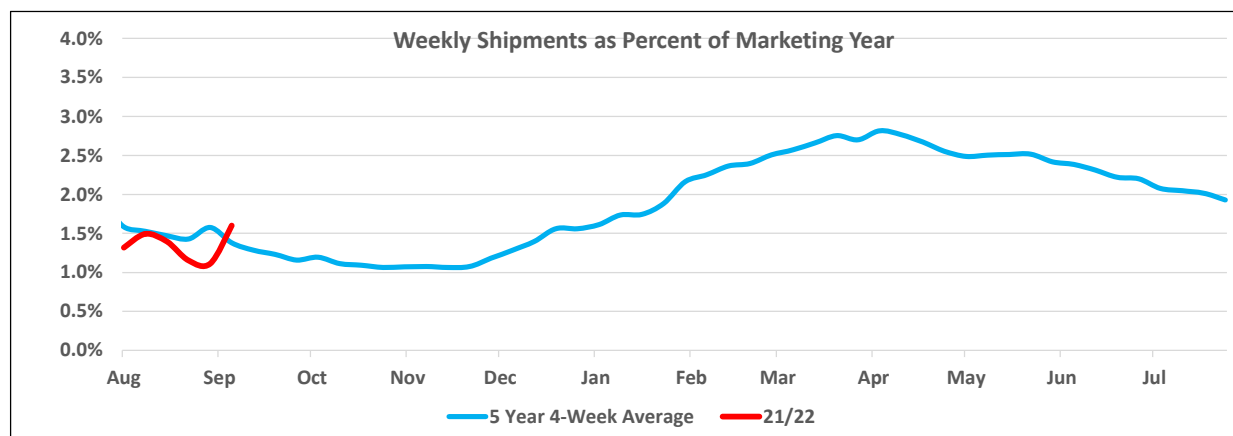

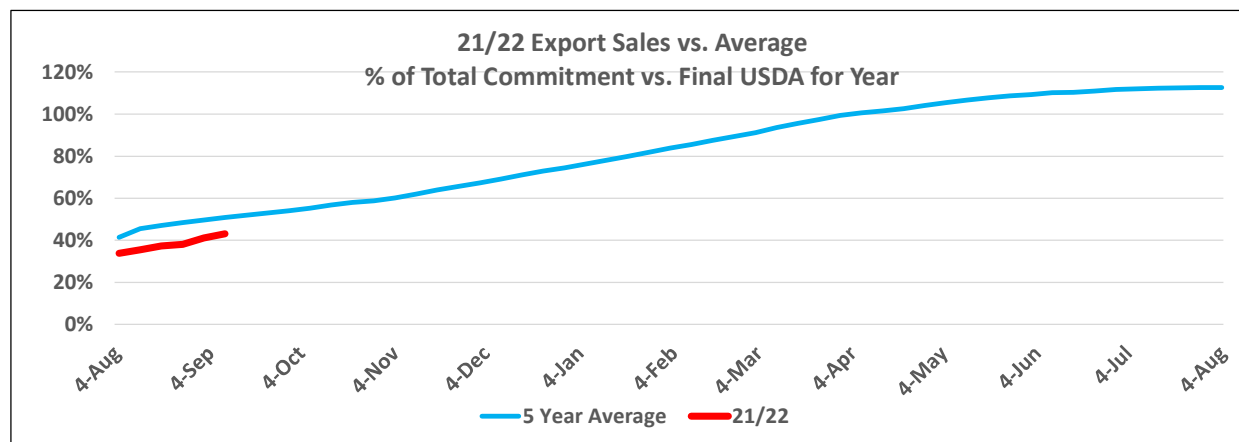

Cotton export shipments improve, but sales decline in the first week after the USDA increased their projected exports to 15.5 million bales for the 2021/22 marketing year.

Sales were down from last week's best-of-the season but still above the average weekly pace needed. China was the main buyer for second week with 185,200 running bales. Pakistan bought 33,800, Turkey bought 17,600 and Peru bought 14,700. Notable that Pakistan has bought 1,123,900 for this season versus China at 1,288,600.

Pakistan purchases at 1.1 million bales are three times the same week last year (358,100 bales) and approaching the 1.7 million bales of 20/21 shipments.

China received over one-third of the shipments for the week with 87,000 bales – their best week of the year. Outstanding sales to China now stand at 1,055,600 running bales.

Net cancellations were only 800 bales - all for Japan.
