

The Foliar Fertilizer That Gets Results!

Guaranteed Analysis

Total Nitrogen (N)	11.00%
2.40% Ammoniacal Nitrogen	
8.60% Urea Nitrogen	
Available Phosphate (P2O5)	8.00%
Soluble Potash (K2O)	5.00%
Boron (B)	0.02%
Cobalt (Co)	0.0005%
Copper (Cu)	0.05%
0.05% Chelated Copper (Cu)	
Iron (Fe)	0.10%
0.10% Chelated Iron (Fe)	
Manganese (Mn)	0.05%
0.05% Chelated Manganese (Mn)	
Molybdenum (Mo)	0.0005%
Zinc (Zn)	0.05%
0.05% Chelated Zinc (Zn)	

Whether you're growing cotton, soybeans, corn, rice or other crops, ENC (Ele-Max Nutrient Concentrate) can give you the results you expect from a foliar fertilizer. That's true whether your crops are stressed and need to recover quickly, or if you simply want to provide well-balanced nutrition for higher-yielding, higher-quality crops. The unique formulation includes the major elements --N, P & K--plus boron, iron, manganese, copper, zinc, cobalt and molybdenum.

The minor elements are chelated, which enhances their effectiveness and makes them less likely to cause crop injury. After the plant absorbs ENC, root growth is enhanced. Thus, a foliar application of ENC can benefit the crop above and below the ground. ENC also has a buffering effect on hard water, and is compatible with fungicides, insecticides and herbicides, including all glyphosate products.

- **Balanced foliar nutrition**
- **Quick crop response, particularly under stressful conditions**
- **Readily absorbed by plant leaf, shoot, stem and root tissue**
- **Multi-crop use**
- **Compatible with most fungicides, insecticides and herbicides**
- **Can be applied with other NPK products**
- **Excellent crop safety**
