[Grains closed mixed today](#) Funds were net sellers of 3k corn contracts and 2k wheat contracts while buyers of 2k soybean contracts. [Today, funds \(managed money\)](#) are estimated to be **short** 154,141 corn contracts, **long** 37,123 soybean contracts and **short** 99,837 Chi wheat contracts.

Grains closed mixed today largely in follow thru reaction to yesterday's USDA reports and limited fresh news. [December corn futures posted a new low today](#) not seen since Sep of 2021. After trading lower much of the session yesterday, soybeans did close higher. The trade is focusing on weather in Brazil and Argentina as they try to advance planting progress while US farmers are approaching the finish line of harvest '23. The weekly CFTC COT report was delayed today due the federal government Veterans Day holiday observance.
