Please Note: Silver's Comments will update on an irregular schedule the balance of 2022. Thank you for reading my comments and for your continued interest. Many thanks for your business! -Mike Silver

Grains closed mixed today. Corn and wheat closed lower while soybeans closed higher. Funds were net buyers of 2k soybean contracts and net sellers of 2k corn contracts and 6k wheat contracts. See page 5 for the current fund positions.

Review the eia ethanol report numbers on page 4.
The Weekly USDA grain export numbers will be released tomorrow morning.

Grain and oilseeds futures were mixed to weaker today. Soybeans continued to test the upside potential amid waning momentum, while wheat prices posted double-digit losses in late-month profit taking that pulled corn prices lower as well. It's risky to make too much of any price moves under thin holiday conditions late in the year.

What is your grain position? What is your plan? Offers in?
