Grains closed higher today. Funds were net buyers of 8k wheat contracts, 1k soybean contracts and 8k corn contracts. Today, funds (managed money) are estimated to be short 48,167 corn contracts, long 87,244 soybean contracts and short 52,409 Chi wheat contracts.

In a week of highly volatile trade, grains closed higher Friday and for the week. December corn was up 13 1/4 cents and the September U.S. wheat closed more than 20 cents higher Friday, with no firm announcement yet as to whether Russia will agree to extend the terms of the Black Sea deal, an agreement Russia has not been abiding by anyway. Friday's weather map showed rain in Nebraska, heading into Kansas with a risk of strong winds and hail. US grain export sales continue to lag the pace to meet USDA export projections. Markets will continue to monitor crop conditions and forecast yields.
