New Customer Website

"Our new customer website, https://portal.gccoop.com, is now live. This website will give you access to your account details such as invoices, statements, and prepay details. You also have the ability to pay your account balance online with scheduled payments. Account details can be viewed on screen or exported to Microsoft Excel. To open any document, just double click a detail line. The site **will not** include grain account details. You can still access your grain information at https://patron.gccoop.com.

This site is separate from Patron Access and you will have to register for a new account to gain access. You can only have one login account per customer account on this site. So if you need access to multiple accounts, you will have to register for multiple logins. To register for an account, browse to https://portal.gccoop.com, and select the request an account link. After you fill out the form, it will notify us to activate your account. You will then receive an email back from us notifying you to finalize your registration.

The website is easy to use and if you have any trouble, please contact GCC IT at portal@gccoop.com or 620-275-6161."
