

Revised -- Pro – Ag Farmers Coop –Harvest Policy

Effective Sept 24th 2018

Subject to Change Without Notice

2018 delay pricing program for soybeans

- Service charges are 5 cents per month with a **20 cent minimum** per bushel charge to apply. Good for 120 days of charges.
- All soybean on price later open assemblies will be charged the minimum 20 cents after 10 days on a per load basis. For example on day 11, per load, the 20 cents will be charged back to day one.
- Service charges will accrue at a daily rate after the 120 the day of delivery per load.
- After 10 days elapse from the last delivered load the soybeans will be put on a price later contract and mailed out.
- There is no drop dead date to sell in 2019 as in the past, soybeans can stay on the 5 cent a mo program.

2018 delay pricing program for corn

- Service charges are 5 cents per month or .00166 cents per day with NO minimum charge.
- There are ten free days to price if not priced service charges will be charged back to day one per load.
- After 10 days elapse from the last delivered load the corn will be put on a price later contract and mailed out.
- There is no drop dead date to sell in 2019 as in the past, corn can stay on the 5 cent a mo program.

All Grains

- All grains marked sell after 1:15 close on Fridays will be spotted in the next trading day at 8:30 AM.
- Each producer is responsible to inform the scale operator who the grain is for, the disposition of the grain (sell, contract, price later, etc.) and when delivery is complete. If a scale ticket is left blank in the pricing box the grain will be placed on price later.. If it is to be a spot sale make sure it has the current market price in the box unless it is later than 1:15 Friday then sell would be ok. If sell or a price is not on the scale ticket it is not sold—no if ands or buts!!
- Grain checks are printed and mailed on request. I/E please let us know what you want (check , defer payment, etc.)
- Grain that is exceptionally off grade , wet or heating may be rejected
- Price later grain will have discounts applied based on discounts in effect on the date of pricing
- Grain placed on DP contract will stay on the daily billed rate until sold even if free DP is allowed on deliveries at a later date.
