

### It's time to **POWER UP!**

by Dr. Jennifer Leupp

The season is upon us where you are busy with school activities, thinking of harvest and weaning calves and of course, football! Our goal at Farmers Ranchers is to help you through this busy time. During the "off-season" we

developed a product to get your calves **Powered Up** so you can pay more attention to the other activities in your life.

**FR Power Up Pak** was formulated to add pounds to your calves by improving their overall health. As simple as that sounds, **Power Up Pak** is complex to fight stressors to the calf's system. The objective of the **Power Up Pak** is to support the immune system. **Power Up Pak** does this by creating a healthy balance of microflora in the rumen and gut. Stimulating the microflora increases fiber digestibility and nutrient utilization thus maximizing rumen and gut health. A healthier immune system also stimulates antibody responses in the digestive tract which in turn fights off diseases. These benefits put weight on your calves and money in your wallet. You can't afford not to **Power Up** your herd\*!

The time is now for you to **Power Up** those calves for weaning, the sale barn or feedlot. Call Farmers Ranchers Cooperative in Ainsworth at 402-387-2810 and have the **Power Up Pak** added to your creep feed, receiving feed or mineral!

\***Power Up Pak** is not just for calves. This pak will benefit males or females in all stages of production. More information to come on those benefits.

### A Midwest town just got a little **Bigger!**

Welcome Monte Andrews and family

Farmers Ranchers newest feed specialist is Monte Andrews. Monte is originally from Okanogan, Washington where he

owned a feed and fertilizer outlet for 24 years. Now living in Bassett, he has 3 children, Clancy (17), Mylan (16) and Dakota (15). His wife, Laurie of 23 years is still in Okanogan until Clancy's graduation in June. Monte's hobbies include raising a few head of cattle, fishing, reading and watching his kids compete in sports. With a Bachelor of Science degree in Animal Science and a minor in Agricultural Economics from Washington State University, Monte is excited to be in Nebraska and looking forward to meeting and working with the cattle producers.
