Calcium (Ca), (Min)	0.50 %
Phosphorus (P), (Min)	0.50 %
Salt (NaCl), (Min)	0.50 %
Potassium (K), (Min)	1.00 %
Vitamin A, I.U./lb, (Min)	1700

NON-MEDICATED FEEDING DIRECTIONS:

Feed 2% of bodyweight per head daily along with good quality forage to weaning and receiving cattle.

CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

IMPORTANT:

This product is to be fed only to the animal species as directed on this label. Follow these management practices: 1. Do not allow animals to run out of feed. 2. Feeders/bunks should be well protected and managed to prevent accumulation of fines and wet, moldy feed. 3. When making a ration change, allow 7 to 10 days for animals to adjust to the new ration. 4. Provide adequate feeder space for each animal. 5. Fermented feeds (high moisture grains and silages) should be limited to 10% of the diet for young or stressed cattle. 6. Stressed cattle should be placed in clean, uncrowded environments. 7. Provide salt free choice. 8. Provide fresh, clean water near the feeding area. In groups of cattle, there are certain animals that experience chronic bloat or other digestive disturbances and consequently, are poor performers. In addition, excess feed consumption, severe weather changes resulting in erratic feed consumption, and poorly managed feeding practices can increase the incidence of bloat in all cattle. If bloat occurs, please review feed management practices.

Available Options:

Product	Product No.	Active Drug Ingredient(s)
Accuration® Starter Complete WC	00049103 – Bulk; 0049104 - Bag	None
*Accuration® Starter Complete WC AS77	00049105 – Bulk; 0049106 - Bag	Chlortetracycline, Sulfamethazine
*Accuration® Starter Complete WC AS140	3002426-501 – Bulk	Chlortetracycline, Sulfamethazine

*Must be fed according to feed label. Please see Purina® representative for information on individual product options and availability.
