Calcium (Ca), (Min).....	1.25 %
Phosphorus (P), (Min).....	1.00 %
Salt (NaCl), (Min).....	1.25 %
Potassium (K), (Min).....	1.50 %
Vitamin A, I.U./lb, (Min)	10,000

CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

NON-MEDICATED FEEDING DIRECTIONS:

Feed 5 pounds (1 % of bodyweight) per head daily along with good quality forage to weaning and receiving cattle.

IMPORTANT:

- Do not allow animals to run out of feed.
- Feeders/bunks should be well protected and managed to prevent accumulation of fines and wet, moldy feed.
- When making a ration changes, allow 7 to 10 days for animals to adjust to the new ration.
- Provide adequate feeder space for each animal.
- Fermented feeds (high moisture grains and silages) should be limited to 10% of the diet for young or stressed cattle.
- Stressed cattle should be placed in clean, uncrowded environments.
- Provide salt free choice.
- Provide fresh, clean water near the feeding area. In groups of cattle, there are certain animals that experience chronic bloat or other digestive disturbances and consequently, are poor performers. In addition, excess feed consumption, severe weather changes resulting in erratic feed consumption and poorly managed feeding practices can increase the incidence of bloat in all cattle. If bloat occurs, please review feed management practices.

Available Options:

Product	Product No.	Active Drug Ingredients
Stress Care® 5	3003075	None
*Stress Care® 5 AS140	3003076	Chlortetracycline, Sulfamethazine
*Stress Care® 5 AU2000	3003077	Chlortetracycline
*Stress Care® 5 B100	3003078	Lasalocid
*Stress Care® 5 B100 AU140	3003079	Lasalocid, Chlortetracycline
*Stress Care® 5 DX.005	3003080	Decoquinatate

*Must be fed according to feed label. Please see Purina® representative for information on individual product options and availability.
