

Seasonal Grain Tech

At Waukon Feed Ranch, agriculture and family are the roots of our business. Our mission is to grow and develop our customers, employees, and community through providing products and services needed for a vibrant rural economy. The Seasonal Grain Tech contributes to our mission by ensuring all grain customers are valued and treated with respect, grain is accurately accounted for and stored, and harvest flows as smoothly as possible.

As a Grain Intern, a typical day may include the following:

- Be polite and courteous with all Waukon Feed Ranch customers
- Work at our grain dump to put customers' commodities in the appropriate area
- Keep work areas clean during harvest including sweeping and shoveling as needed
- Assist our grain operations team with repairs and to fix breakdowns as they come up
- Position will be at the Agronomy Center and the Feed Mill outside, depending on needs for the day
- Be able to work various hours during harvest (September – November), WFR can schedule you as you are available
- This position is seasonal, but could lead to full time employment if desired. Hours can be flexed depending on candidate's availability

This job might be for you if:

- You are dependable and punctual
- You have strong attention to detail
- You enjoy a busy, fast paced environment
- You can work on your own or with several others
- You enjoy communicating with producers
- You like to be outside
- You have the ability to troubleshoot and fix mechanical issues

The following education and/or experience is required:

- No previous experience required. No education requirements.
