

2026 Cash Averager

Example of how it works:

1. Enroll 5,000 bu. of delivered Corn, Soybeans, or Spring Wheat.
2. Over the course of 18 weeks (ex. March 5th – July 2nd), FFGE prices (cash) 1/18th of your bu.
3. Pricing is transparently done at the close of each Wednesday.
4. On the last pricing day, you receive a cash contract with the average price of the 18-week pricing period.

Why enroll your bushels:

1. Take your emotions out of the market.
2. It is free.
3. Grower retains the right to price out of any unpriced bushels at anytime during the pricing period.
4. No double-up.
5. Available for old crop (July) or new crop delivered bushels.
