## Happy New Year 2010

### WE NEED EVERYONE TO HELP WITH THIS.

**[www.roundupreadyalfalfa.com](http://www.roundupreadyalfalfa.com)**

#### **Farmers Can Now Express Support for Roundup Ready® Alfalfa**

Forage Genetics International and Monsanto Company would like to thank you for pre-registering to show your support for biotech crops such as Roundup Ready® alfalfa and to defend your right to choose which technologies you want to plant.

It is not only important that farmers share their positive experiences about this product, but also that other members of our industry say why the freedom to choose which technologies to plant should not be compromised. To ensure your voice is heard, please go to [support.roundupreadyalfalfa.com](http://support.roundupreadyalfalfa.com). Example form letters have been created to simplify the submission process. We encourage you to submit your letter to the USDA no later than January 2010 to ensure it is received before the comment period is set to end on Feb. 16, 2010.

**With the New Year Comes New Tools. Check your Grain accounts online.** Go to [www.equityma.com](http://www.equityma.com) and click the Patron Access tab, then the New Account Request tab and fill in the information. Then you will be given access to your grain accounts online. How great is that? Make this your New Years Resolution Today.

**The Burlington Cooperative Association Employees and Directors would like to say Thank You to Our Customers for a great year and wish everyone a safe and prosperous 2010.**
