

Happy 4th of July

Burlington Coop Association

Newsletter Date
July 1, 2010

Office, Elevator and Station will be closed July 5th (Monday).

C-Store will be closing at 6:00 pm July the 4th.

ON THE FARM SEED WHEAT CLEANING

Danny Oysterman-Superior Seed Cleaning 405-250-9288 will be cleaning seed on the farm again this year. Give him a call so he can schedule when he will be in our area.

What a delightful surprise this wheat harvest turned out to be. Even with very little moisture last fall, winter, and spring, the wheat crop still produced high quality test weights with better than average yields. Definitely better quality and yields than I was expecting. At the end of June your Co-op had received over 1.9 million bushels of wheat.

We would like to thank everyone for the opportunity to handle their grain this harvest.
Thank you for your business.

Harvest is over and it is time for soil sampling
call Steve at 580-829-1246 to schedule your fields today.

Check your grain online! Just go to our web site www.burlingtonok.com, click on the link Patron Access, then New Account Request, fill in the information, and then EMA will send you an email, so you can look at your grain accounts over the internet.

Book your Canola Seed Now!

The decreasing wheat price with little to no demand for lower protein wheat in southern Oklahoma has producers looking for alternative solutions.

This could create a large demand for canola seed this fall.

The Sixth Annual OK-KS Winter Canola conference will be in Enid on July 20th 2010. This is a great source of information on raising this crop.
