Good morning!

Corn and beans are both weaker here at the morning break. More news in the middle east this morning. Trump announced a ceasefire between Iran and Israel last night. Which Israel decided to break firing missiles at Iranian radar equipment overnight. Iran responded by firing a couple missiles into Israel that hit nothing. Trump is ticked off, but as off now it seems things have deescalated again. So, we will continue to monitor that. Crop conditions out yesterday afternoon national corn rating dropped 2% to 70% good to excellent. Soybean ratings stayed at 66% good to excellent. Stay cool out there everyone!
