Good morning!

Corn and beans both a touch weaker at the morning break. Rumor of Trump traveling to China in August to try to reinvigorate trade deal. Talks of a 90 day extension on Aug 12th deadline are being floated. Rainfall yesterday across most of the state of Illinois yesterday evening. Some pop up continued into the early morning hours. Unseasonable cool the next 2 days. Today's high is a balmy 79 degrees a much welcomed break from the stickiness of the past 2 days.
