Good Morning,

Corn and beans both up around a nickel at the morning break. Weekly corn export sales at 170.4 KMT for old corn and 3.16 MMT for new corn. New crop really exceeded expectations. Trump's higher tariff rates on dozens of trade partners are set to kick in today; does not sound like a deal with India is relatively close at this point. Trump and Putin are set to meet in the next few days. It will be the 1st time the 2 country's leaders will meet since the invasion of Ukraine. The heat is back locally after a nice 6-7 day break. Slight chance of pop-up storms today. We will see what the day brings!
