

2025-2026 NON-GMO SOYBEAN PROGRAM

- Loads will stand on their own for all grade factors.
(NON-GMO's will not be included in averaging moisture by farm)
- Premium paid only on loads that pass the required testing.
- No premium will be paid on loads over 15.0% moisture. Subject to rejection or will be dumped as regular soybeans.
- A ¢ .25 per bushel fee may or may not be assessed on undelivered contracted bushels depending on market conditions.
- Bushels delivered over the contracted amount may or may not be paid a premium depending on market conditions.
- If there is any corn in your loads, it will be rejected. If you use cover crop on your NON-GMO fields and seeds are found in the loads you bring to the elevator, it will be treated like corn and rejected.
- Loads under 250 bushels will be charged for NON-GMO testing.
