Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In lieu of section 6(b) of the Basic Provisions, you may only choose a protection factor of 120 percent for catastrophic risk protection. However, in accordance with section 8(m) of the Basic Provisions, if you do not submit a production report to us by the production reporting date specified in the actuarial documents, your protection factor for your catastrophic risk protection policy in the following crop year will be limited to the lowest protection factor available.

Premium

In lieu of section 7(i)(2)(i) of the Basic Provisions, notwithstanding section 7(i)(2) of the Basic Provisions, if you demonstrate you began farming for the first time after June 1 but prior to the beginning of the reinsurance year (July 1), you may be eligible for premium subsidy the subsequent reinsurance year without having form AD-1026 on file with FSA on or before June 1. For example, if you demonstrate you started farming for the first time on June 15, 2015, you may be eligible for premium subsidy for the 2016 reinsurance year without form AD-1026 on file with FSA.

Effective for any policy with a sales closing date on or after July 1, 2015, but not later than June 30, 2016, in lieu of sections 2(h) and (i) of the Basic Provisions, you may not cancel your policy for the initial crop year unless you choose to insure the entire crop under another Federally reinsured plan of insurance with the same insurance provider on or before the sales closing date, but after the initial crop year you may cancel your policy by providing written notice on or before the cancellation date shown in the Crop Provisions. However, for both new and carryover policies you may cancel your policy not later than 45 days after the cancellation date if all of the following are met:

1. You request through your agent and Approved Insurance Provider to query the FSA data regarding whether you have filed an AD-1026 with FSA and such query reveals that there is no AD-1026 on file for the identification number under which you seek, or have, insurance;
2. You believe the FSA information is in error and that a valid AD-1026 is on file;
3. You make application, or elect not to cancel an existing policy, based on this belief;
4. You request review not later than 15 days after the sales closing date, via your AIP, by RMA and FSA of your records and attempt to reconcile any discrepancy; and
5. The result of such process is that you do not have a valid AD-1026 on file.

If all of these conditions are not met, you are precluded from cancelling your policy until the next crop year and you will be responsible for all premium owed.

Special Provisions of Insurance 2016 and Succeeding Crop Years

Year: 2016

Commodity: Wheat (0011)

State: Ohio (39)

Date: 6/10/2015

Plan: Area Yield Protection (04)
Area Revenue Protection (05)
Area Revenue Protection - Harvest Price Exclusion (06)

County: Paulding (125)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS guidelines. If growing conditions warrant a deviation from the guidelines, producers should contact either Extension or the local NRCS for management guidance. For information on cover crop management and termination guidelines, refer to the Cover Crop Termination Guidelines published at <http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/landuse/crops/>.

In addition to Section 29 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.
