

The UltraCare® feed program for young pigs is a flexible, nutritionally-sound program from Land O'Lakes Feed providing superior intake, optimal gain and supporting immunocompetence from the farrowing crate to 50 lb. in body weight. Feeding UltraCare® starter feeds is an important nutritional strategy to aid strong pig vitality and optimal gain in the nursery, thereby supporting sustained growth to market. Here is an overview of the products available and a chart showing when to feed each product. To find out more about how your pigs can benefit from the UltraCare® feed program, contact one of your Viafield swine nutritionists today:

## UltraCare® Feed Starter Nutrition Program

**UltraCare® Gel** — UltraCare® Gel provides superior nutrition when fed to pigs still with the sow as well as early weaned pigs weighing 7-15 lb. Scientifically formulated with high moisture content and natural intake enhancer to encourage consumption, prevent dehydration and aid in transition to dry pellets while supporting intestinal health. Recent swine nutrition studies indicate that feeding Gel at vaccination time significantly improves feed intake and average daily gain. Read more on [www.GelResearch.com](http://www.GelResearch.com).

**UltraCare® 100 feed** — Initial, pelleted, highly palatable pre-starter for 6-10 lb pigs with MpD® Feed Technologies designed for early and increased intake while supporting immunocompetence.

**UltraCare® 200 feed** — Very palatable, pelleted, starter for 10-15 lb pigs focused on supporting the immune system and enhancing digestion through minimizing transitional stress and providing a performance-gearred intestinal environment via MpD® Feed Technologies.

**UltraCare® 240 feed** — Pelleted, dry starter with MpD® Feed Technologies for 12-17 lb pigs; provides a balanced starter that maximizes intake and digestion, while supporting immunocompetence with unique ingredients that improve the intestinal environment.

**UltraCare® 300 feed** — A dry starter with MpD® Feed Technologies for 14-21 lb pigs; provides a balanced starter that maximizes intake and digestion, while supporting immunocompetence with unique ingredients that improve the intestinal environment.

**UltraCare® 400 feed** — A dry starter with MpD® Feed Technologies for 21-30 lb pigs; provides a balanced starter that maximizes intake and digestion, while supporting immunocompetence with unique ingredients that improve the intestinal environment.

**UltraCare® 500 feed** — A dry starter with MpD® Feed Technologies for 30-50 lb pigs; provides a balanced starter that maximizes intake and digestion, while supporting immunocompetence with unique ingredients that improve the intestinal environment.

**UltraCare®** We deliver early gain.

## Pig Starter Feeding Guidelines<sup>a</sup>

Pounds per head of each diet<sup>b</sup>

UltraCare Starter		100 <sup>c</sup>	200 <sup>d</sup>	300	400 <sup>e</sup>	500 <sup>e</sup>	TOTAL	F/G
Pig Weight (lb)		6 to 10	10 to 15	14 to 21	21 to 30	30 to 50	(lb of feed)	
Avg. Beginning Pig Wt. (lb)	8	3	5	6	14	29	57	1.36
	9	3	5	6	14	29	57	1.39
	10	2	4	7	14	29	56	1.40
	11	1	4	7	14	29	55	1.41
	12	-	4	7	14	29	54	1.42
	13	-	3	7	14	29	53	1.43
	14	-	2.5	6.5	14	29	52	1.44
	15	-	2.5	5.5	14	29	51	1.46
	16	-	2.5	4.5	12	29	48	1.41
	17	-	2.5	4.5	12	29	48	1.45
	18	-	2.5	3.5	10.5	29	45.5	1.42
	19	-	2.5	2.5	10.5	29	44.5	1.44
	20	-	2.5	2.5	9	29	43	1.43
<b>Estimated F/G</b>		<b>1</b>	<b>1.03</b>	<b>1.29</b>	<b>1.38</b>	<b>1.5</b>		<b>1.30</b>

<sup>a</sup> This sheet represents a guide to the amount of feed per pig of each UltraCare™ diet based on average beginning pig weight. Budgets can be estimated using these guidelines and will vary with each coop, swine operation and sales person.

<sup>b</sup> Expected feed amounts will vary due to environment, genotype and health status.

<sup>c</sup> Use **UltraCare™ Gel** in addition to UltraCare™ 100 for optimal pig performance at a rate of 0.2 to 1 lb per head per day on a mat, solid floor or supplemental feeder located near or in front of dry feeder for 4-5 days.

<sup>d</sup> All weaned pigs should receive at least 2.5 lb of UltraCare™ 200 and UltraCare™ Gel for 2-3 days at a rate of 0.3 to 1 lb per head per day.

<sup>e</sup> Grid & Mix UltraCare™ 400 and UltraCare™ 500 diets are also available.
