

LAND O LAKES® ELECTROLYTE COMPLETE

Designed to address electrolyte loss, nutrition and dehydration

LAND O LAKES® ELECTROLYTE COMPLETE is designed for:

- Prevention of dehydration
- Hot weather Stress
- Scours

Although calves get scours from a variety of pathogens, one thing is for certain; once they get scours they will likely experience electrolyte loss and dehydration.

Calves, like humans, are made up mostly of water. Once dehydration sets in, the calf will experience a significantly increased risk of death.

LAND O LAKES® Electrolyte Complete is designed to address electrolyte loss, nutrition and dehydration.

It's designed to act as a **Treatment and Preventative** solution to dehydration.

Provides:

- Excellent intake
- Preference equal to competing electrolyte products.
- Significantly better performance than existing products with lower cost of use.

Why choose LAND O LAKES® ELECTROLYTE COMPLETE?

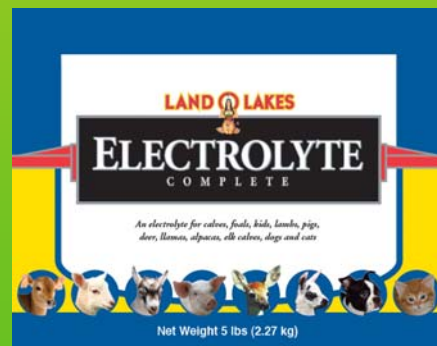

- Unlike many other calf electrolyte products on the market, our formula does not contain direct fed microbials which could lead to d-lactic acidosis.
- Formulated with premium ingredients to ensure the results you require and expect from the leader in young animal nutrition.

Available in three convenient package sizes

- 25# bag
- 10# pail
- 5# canister*

*5 lb canister labeled with feeding directions for multiple specie including;

- calves
- foals
- kids
- lambs
- pigs
- deer
- llamas
- alpacas
- elk calves
- dogs
- cats

CALF CARE PRODUCTS

LAND O LAKES[®] ELECTROLYTE COMPLETE

Designed to address electrolyte loss, nutrition and dehydration

PREPARATION OF LAND O LAKES[®] ELECTROLYTE COMPLETE

25 GALLONS Dissolve **10 POUNDS** (4.5 kg) of Electrolyte Complete in **25 GALLONS** (100 qts or 94.6 L) of warm water (110-120° F or 43-49° C).

5 GALLONS Dissolve **10 SCOOPS** (2.0 lbs or 0.9kg) of Electrolyte Complete in **5 GALLONS** (20 qts or 18.9 L) of warm water (110-120° F or 43-49° C).

2 QUARTS Dissolve **1 SCOOP** of Electrolyte Complete in **2 QUARTS** (1.9 L) of warm water (110-120° F or 43-49° C). Each scoop holds approximately 93 grams.

GUARANTEED ANALYSIS

Sodium (Na)	Min 6.0%
Sodium (Na)	Max 7.0%
Potassium (K)	Min 1.8%
