

# *Late Spring Nitrate Testing*

**Determine soil Nitrate-N levels to plan in-season Nitrogen applications**

## *Timing*

- If necessary, early season N sampling: V3 – V5
- Late season N sampling: V8 - VT

## *Details*

- One-time test taken in single spot
- Results received in 2-3 business days
- A&L Great Lakes Lab

## *Legacy's Goals*

- Maximize grower yield potential
- Allow growers to best manage N applications
- Y-Drops for late N applications
- Practice our 4R nutrient stewardship
