The project room

Yalova-Elyaf administrative annex
The gallery in front of the offices views the entrance volume

Yalova-Elyaf administrative annex
The open area between the offices and the project room
also serves as a reception

Yalova-Elyaf administrative
The entrance space from the gallery at right

Yalova-Elyaf administrative annex
Private offices for the managers

Yalova-Elyaf administrative annex
The round widows on the west facade provide light
for the service areas

Yalova-Elyaf administrative annex
The random use of transparency and opacity on the facades
create different effects of light inside the building

Yalova-Elyaf administrative annex
Night view

Yalova-Elyaf administrative annex
Different degrees of light create different degrees of reflection
on the building surface

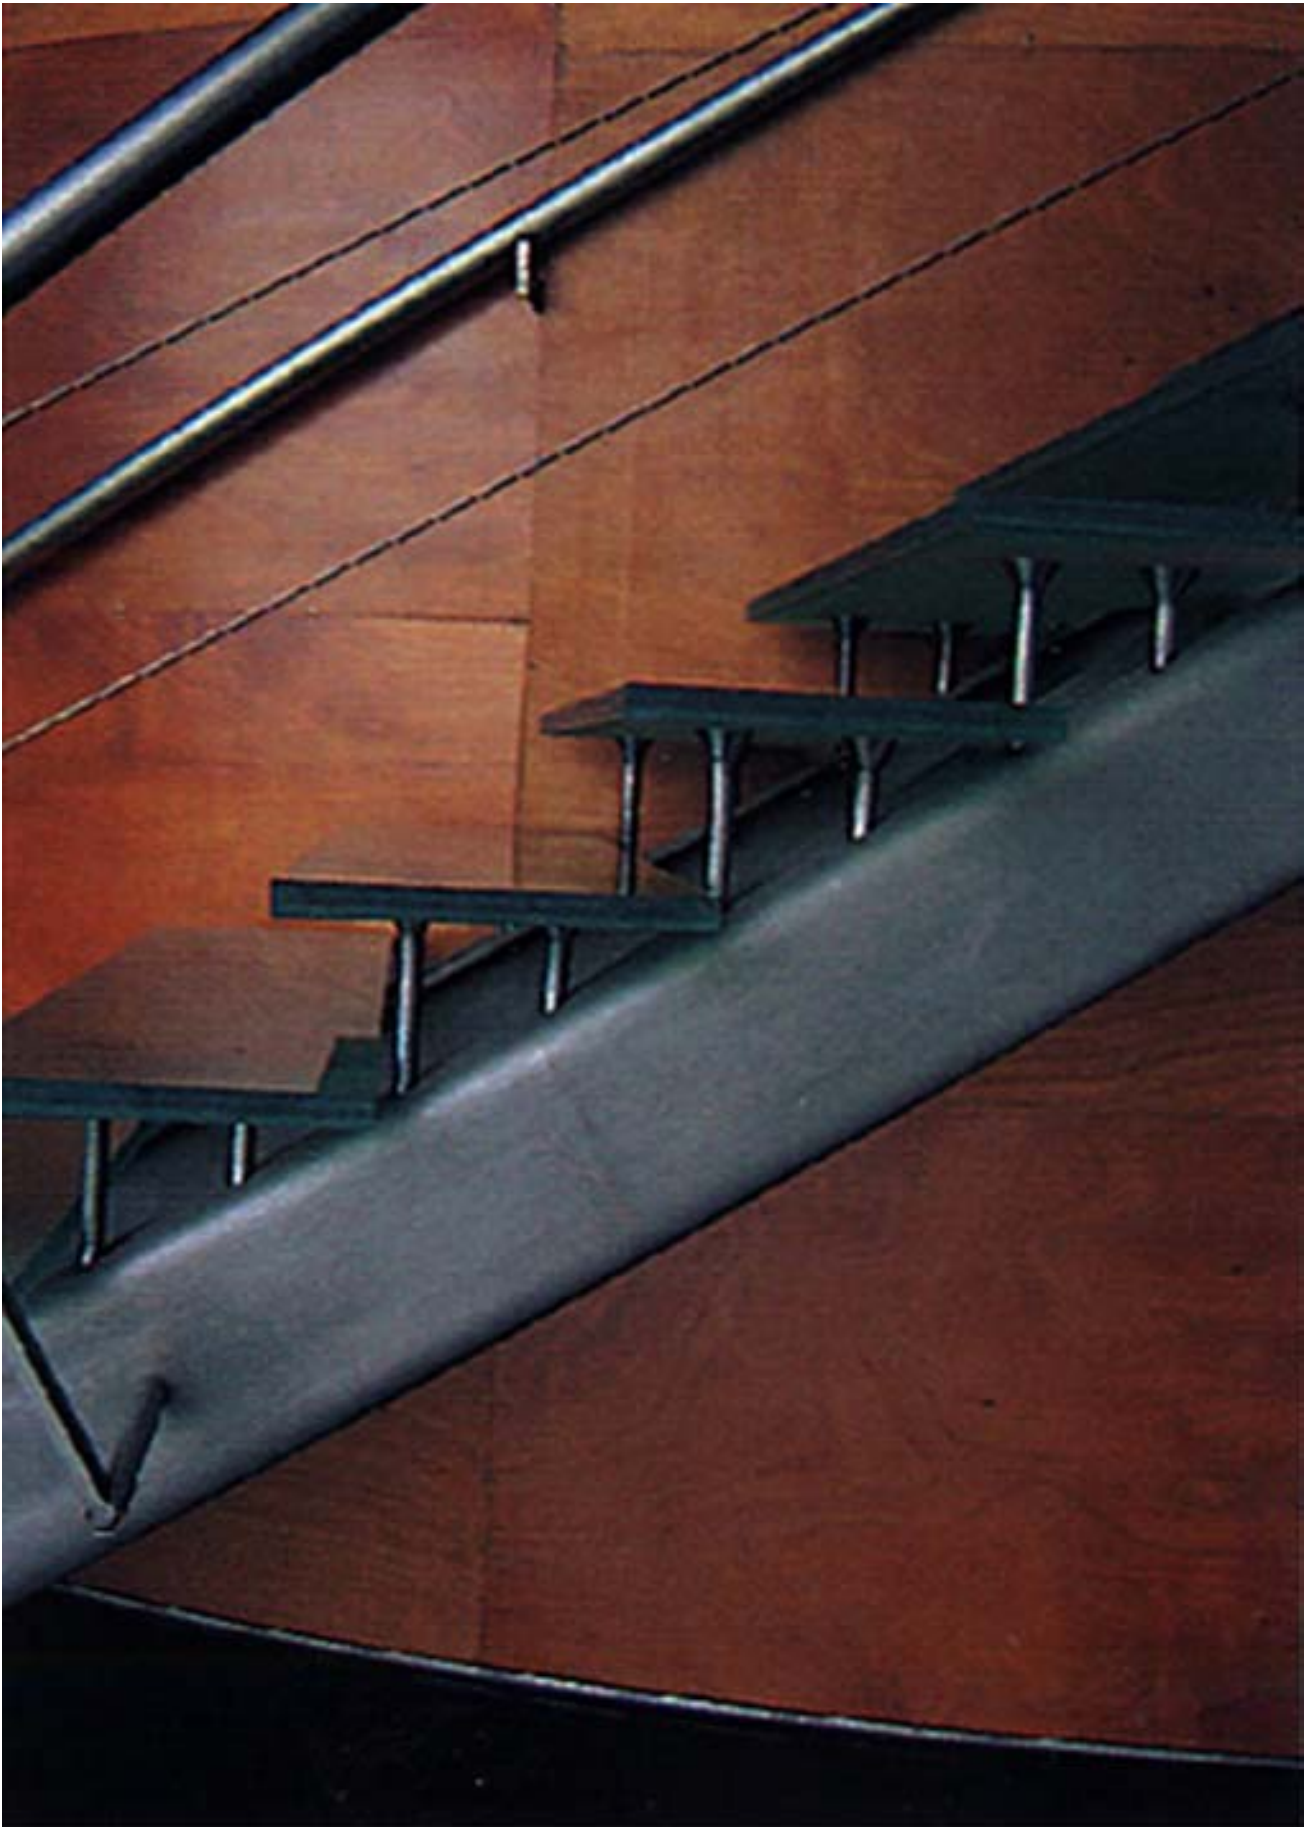

Yalova-Elyaf administrative annex
Pebbles provide a natural finish to the building
at the ground level

Yalova-Elyaf administrative annex
The staircase consists of laminated glass steps (3x10mm thick)
fixed onto a steel structure. Two asymmetrical steel handrails appear
on both sides of it

Yalova-Elyaf administrative annex
The staircase curls beside the curved plywood wall
to reach the upper floor

Yalova-Elyaf administrative annex
The steel structure attached to the south facade will serve
as a support for the factory logo board

Yalova-Elyaf administrative annex
This double-sided board also provides room for
the mechanical systems that extend from the ground to the roof
