

July 15, 2015

The Honorable John Boehner  
Speaker  
U.S. House of Representatives  
Washington, D.C. 20515

The Honorable Mitch McConnell  
Majority Leader  
U.S. Senate  
Washington, D.C. 20510

The Honorable Nancy Pelosi  
Democratic Leader  
U.S. House of Representatives  
Washington, D.C. 20515

The Honorable Harry Reid  
Democratic Leader  
U.S. Senate  
Washington, D.C. 20510

**CONSTRUCTION INDUSTRY URGES CONGRESS TO REINSTATE  
DEPRECIATION BONUS, INCREASED SEC. 179 EXPENSING**

Dear Speaker Boehner and Leaders McConnell, Pelosi, and Reid:

The 29 undersigned organizations representing a broad cross section of the U.S. construction industry urge Congress to swiftly reinstate 50 percent bonus depreciation and higher Sec. 179 expensing levels.

Over the past several years, bonus depreciation has improved cash flow, encouraged the adoption of newer, more efficient technology, and created jobs by allowing companies to write off a significant portion of the cost of their new machinery. Similarly, higher Sec. 179 levels have helped small businesses grow and compete by expensing a greater portion of their new and used equipment purchases. However, on Jan. 1, 2015, the 50 percent depreciation bonus expired and Sec. 179 expensing levels fell from \$500,000 with a \$2 million phase-out cap to \$25,000 with a \$200,000 limit.

Members of both parties recognize the broad economic benefits associated with reinstating capital investment incentives. However, every day that Congress delays undermines the potential impact between now and the end of the year. Indeed, the fact that Congress waited until mid-December to act on bonus depreciation and Sec. 179 last year limited the benefit, particularly for the construction industry where equipment purchases often require longer lead times. With that in mind, we urge you to work together to pass legislation extending the capital investment incentives (i.e., as part of a broader tax extenders package) as quickly as possible.

We also respectfully remind you that depreciation bonus and Sec. 179 are just one part of a larger economic equation. These capital investment incentives are just that: *incentives*; they are not alone *reasons* for businesses to make new purchases. For that to happen, business owners must be profitable and optimistic about the future. Unfortunately, the historic uncertainty surrounding the federal highway program has undermined confidence in the construction sector and made some firms reluctant to invest.

To address this problem, Congress should make legislation restoring the Highway Trust Fund's fiscal stability *and* reinstating capital investment incentives immediate priorities.

Paired together, a long-term highway bill, depreciation bonus, and higher Sec. 179 levels would be powerful medicine to bolster the construction, distribution, and manufacturing sectors and put the economy on track for years of prosperity.

Thank you for your consideration.

Sincerely,
