America Founded On Small Business ~ Support Small Business

America was founded on small business. Let's not let them fade away. Let's keep our small local businesses strong and support them. As big box stores come in to our area it is becoming harder for survival, so it is up to the informed consumer to keep America strong.

EarTech Audiology is one of those local businesses. It has been serving patients for the last 35 years along the Wasatch front. They specialize in comprehensive hearing and balance health care. Why would you go to EarTech Audiology over a big box store? People think that the prices are better. This is a not the case. If you compare the products and service you would see the differences. Big box store just sell product and limited service. Hearing and balance health care is much more than just buying a product.

For your hearing and balance health care you deserve more. As with all medical care, you are looking for someone who has the education and the professional skills that you can trust, as you do with your own medical doctor. Let's look at some of the differences.

- You are being seen by a Doctor of

Audiology that has the knowledge and understanding to give you the best care. Box stores are staffed by hearing clinicians that have limited understanding of hearing.

- You are taken care of in a quiet professional setting not in a large ware house environment.

- Seeing a Doctor of Audiology doesn't mean that costs are more. If your hearing loss requires a hearing aid, EarTech Audiology's prices are the same or better than the box stores.

- EarTech Audiology lets you try different model of hearing aids from many companies. All hearing aid companies are not the same and all the models are different. Which one is best for the patient? That's where EarTech Audiology really makes a difference.

- EarTech Audiology consultation covers all brands and models of hearing aids. Box stores only offer their select models that are limited. What is usually missing is the better upper end of the product lines.

- EarTech Audiology gives you a trial period where you get to take the hearing aids home and try them. Hearing how they work in your life style.

- Fitting new hearing aid on a patient is not a one or two time visit. Multiple adjustments are required over a period to time to maximize the proper fitting of the hearing aid. Box stores object is to sell hearing aids, as many as possible, extra visits cost them time and money.

- EarTech Audiology understands that it's not all about the hearing aid. The follow up and the adjustments of the hearing aid to your life style and work environment needs to happen. It is also important that the same professional services are provided to the patient as long as they own the hearing aid. Getting the right one, that's adjusted correctly for your hearing loss and with the best cost benefit, is of most importance.

- EarTech Audiology accepts most insurances. Most big box stores do not. The patient has to file their own.

- EarTech Audiology, with our years of experience and professional staff will help you with your hearing and balance health care. We don't just sell hearing aids like the big box stores. We are different for a reason.

Chicken Noodle Soup

- Ingredients:**
- 2 1/2 cups wide egg noodles
 - 1 teaspoon vegetable oil
 - 12 cups chicken broth
 - 1 1/2 tablespoons salt
 - 1 teaspoon poultry seasoning
 - 1 cup chopped celery
 - 1 cup chopped onion
 - 1/3 cup cornstarch
 - 1/4 cup water
 - 3 cups diced, cooked chicken meat

- Directions:**
- 1-** Bring a large pot of lightly salted water to a boil. Add egg noodles and oil, and boil for 8 minutes, or until tender. Drain, and rinse under cool running water.
 - 2-** In a large saucepan or Dutch oven, combine broth, salt, and poultry seasoning. Bring to a boil. Stir in celery and onion. Reduce heat, cover, and simmer 15 minutes.
 - 3-** In a small bowl, mix cornstarch and water together until cornstarch is completely dissolved. Gradually add to soup, stirring constantly. Stir in noodles and chicken, and heat through.

Tired Of The Ringing In Your Ears?! NEW Tinnitus Supplement is Helping!

Eartech Audiology is so excited to tell you about this new all natural supplement that has been tested and used to help with individuals that experience ringing in their ears (Tinnitus). There have been many products on the market that have claimed to stop tinnitus but none to date have helped to the degree that this supplement is doing for Eartech Audiology patients. The product is unlike anything else. It not only is producing positive results for those that experience ringing in the ears but also provides other incredible optimal health benefits. I Dr. Kerry Braunberger also experienced ringing in the ears. With the use of this supplement my ringing is gone. I have never been one to highly promote a supplement until know. I'm so impressed with this supplement and what it has done for me and others that I felt that as your professional Dr. Of Audiology that I need to openly share this with all of you.

scientific research and clinical validation, including important human trials, the research team concluded that biologic protection is indeed possible; this Military Micronutrient Formulations (MMF) was born for our valiant men and women in uniform. After years of use with the military it has not become available to the public. Eartech Audiology over the last year (2014) has many patients using this supplement and all but one is having extremely positive results and are thrilled with the results.

MMF was originally designed to:

- Shield your body's software from daily risks and exposures
- Energize your cells to trigger natural repair mechanisms
- Combat oxidative stress and free radicals
- Supercharge you immune function
- Invigorate your body's anti-aging processes
- Safeguard your delicate internal system.

With the core benefits listed above a long with many other side health care benefits like the aid in helping tinnitus individuals. Don't continue to suffer. I'm so excited about this all natural supplement please call me, **Dr. Kerry Braunberger, AU.D for additional information at 801-399-9955.**

The product is called **MMF**. After Sept. 11, 2001, a decision maker in Quantico asked a world-class team of medical doctors and PhD research scientists to determine whether an oral preparation could boost the body's ability to protect and repair its fragile, vital mechanisms. After years of dedicated

Your Referrals Mean The World To Us!

Eartech Audiology is happy to announce its new **Friends and Family Referral Program.**

It is no secret that the largest percentage of our business comes from our satisfied customers who have told friends and family members about the professional hearing healthcare service they have received from us.

This is why we have formalized a Friends and Family Referral Program to give a little back to our wonderful patients like you! Our new patients have been given the opportunity to participate in this program, and now we would like to offer our past patients the same opportunity.

The program is quite simple; if you are satisfied with the service you have received from Eartech Audiology we ask that you refer friends or family members that may benefit from our services.

Simply ask for a referral card at the front office. If you decide to refer someone to our practice, please give them one of these cards (write your name on the card) and encourage them to present it at their appointment. If the person you have referred can benefit from our services and elects to purchase hearing aids from us, **you and the referred patient will receive a free box of batteries, a \$30 dollar value. In addition, you will also receive a Fully Transferable Voucher for 10% OFF the purchase of your next set of hearing devices!** It's our way of saying thank you for your business and the privilege to serve you.
