

# S Series iQ with Sweep Technology

## Sweep and tap your way to better hearing.

Introducing the first hearing aid with touch control. With new *Sweep Technology* from Starkey, you'll never have to struggle with small hearing aid controls again. An innovative touch surface allows you to make adjustments with a simple sweep of your finger. The result? *Simplicity, control and a hearing aid that delivers the most advanced technology available.* S Series iQ with Sweep Technology provides patients with unmatched

performance, comfort, and personalization.

**Performance** – 3x more power with multicore processing, virtually no whistling, better hearing in noise and telephone capabilities.

**Comfort** – It is comfortable and discreet, and delivers smoother transitions between quiet and loud environments. Automatically adjusting to whatever environment you find yourself. **Personalization** – With PrescriptFit™ you are

ensured a personalized hearing experience. The PrescriptFit assessment guarantees your hearing aid matches your lifestyle and loss.
