Information Literacy Education SIG

Alex Hodges, chair

Terry Cavanaugh, associate chair

About the ILE SIG

The Information Literacy Education Special Interest Group (SIG) is a SIG formed as part of a partnership between SITE and the Education and Behavioral Sciences Section (EBSS) of the Association of College and Research Libraries (ACRL), which is a division of the American Library Association (ALA).

Information Literacy is the set of skills needed to find, retrieve, analyze, and use information. In today's society with the amount of information available it is important for students, especially teacher education students, to develop these skills.

We encourage librarians, teacher education researchers, and teachers in both K-12 and higher education to join our SIG and share ideas on how information literacy is being used in your institutions with your students.

Ongoing & Future Initiatives

- When Marilyn Ochoa arrives, she will address a survey initiative for SITE and ACRL to engage the ILE SIG with the overall SITE and EBSS-ACRL memberships.
- Marilyn will give board and conference updates.

SIG Election

- Our SIG will elect a two-year Associate Chair.
- Last year, Terry Canvanaugh was elected for a one-year term as Associate Chair.
- Would anyone like to run?

Discussion Beyond Conference

Use our SIG's virtual conversation space

<http://academicexperts.org/sigs/SITE-IL/>

-- We can use this space between conference to discuss ideas and share documents.

Framework for Information Literacy for Higher Education (2015)

- Filed as a new document within the constellation of information literacy documents
- Shifting understanding of information literacy to focus on knowledge practices and research dispositions
- Use of new media to complete research tasks and to track metacognition

Metaliteracy

builds upon information literacy's traditional core components by emphasizing new roles and responsibilities brought about by emerging technologies and collaborative communities. (Mackey & Jacobson, 2014, p. 2)

Consequential for SITE members or participants. This area of investigation, in terms of IL, offers an ever-growing research terrain of inquiry, production, and responsibility for teacher educators, researchers, librarians, and media specialists.
