

# This Changes Everything

words and music: Danny Larsh / Ben Gowell

I've got a brand new start  
Through the work of the Savior  
By the burden of Calvary  
And the grave that is empty

I've got a brand new song  
Through the gift of salvation  
By Your spirit that set me free  
Jesus, You are alive in me  
All things made new

Foundations were shaken  
This changes everything  
The darkness is fading  
This changes everything  
And our souls came awake  
When the stone rolled away  
'Cause the power of Jesus saves  
This changes everything

I've got a brand new name  
And I hear when you call me  
Where You go I will follow You  
'Cause I know You are with me

Oh, and You have changed my heart  
Even when I am doubting  
When my faith is a crashing wave  
Jesus, You are alive in me  
You've made me new

Foundations were shaken  
This changes everything  
The darkness is fading  
This changes everything  
And our souls came awake

When the stone rolled away  
'Cause the power of Jesus saves  
This changes everything, oh  
This changes everything, oh oh

The cross You carried  
This changes everything  
My sin for mercy  
This changes everything  
The cross You carried  
This changes everything  
My sin for mercy  
You're changing everything

And our souls came awake  
When the stone rolled away  
'Cause the power of Jesus saves

Foundations were shaken  
This changes everything  
The darkness is fading  
This changes everything  
And our souls came awake  
When the stone rolled away  
'Cause the power of Jesus saves  
This changes everything, oh  
This changes everything, oh oh

This changes everything, oh oh  
This changes, changes everything
