

What to Expect – In Person Worship Effective through June 2021

As COVID restrictions are changing and the rate of community spread continues in a downward trend, we want to help people feel comfortable in returning to in-person worship and also to gradually take steps to return to our pre-COVID worship experience.

- **Mask Guidelines**
 - Masks are welcome
 - Masks for vaccinated individuals are optional
 - If you have not been vaccinated we ask that you kindly wear a mask
 - When social distancing is not possible, unvaccinated people are encouraged to wear a mask
- **Worship seating** offers more familiar seating options
 - Center seats are arranged in rows that are spaced 6 feet apart. This allows fully vaccinated people to sit next to other households if they choose to do so
 - If you want to maintain social distancing in the row seating, simply leave 4 empty seats (6ft) between households
 - Chairs on the sides of the room are set in household groupings that are 6 feet apart
- **The Playground is back**
 - A well-spaced Playground will be available and sanitized between services
- **Other points**
 - Pre-registration is no longer required
 - Café entrance and main entrance doors will be open
 - Hymnals are available for use at the first service

Safety

Keeping everyone safe and healthy continues to be a primary focus as we follow CDC and Health Department guidelines.

- We will continue sanitizing chairs and other surfaces after services
- Café will remain closed
- Staff and Church leadership will continue to monitor conditions and adjust guidelines accordingly

We thank you for your awareness of your neighbor's health as well as your own as we welcome the congregation and visitors into the building.
