

The mission of Serve City is to unite youth groups to make Jesus famous through serving the area community.

Serve City is a mission project focused on making a tangible impact on the cities in our area through partnering with local organizations to serve the community. We come alongside organizations already making a difference in the community and with our large number of students and volunteers that week we accomplish large projects the organizations need help with. We want to bring Student Ministries together, in Jesus name, to have a tangible impact in our community through service projects, prayer outreach and partnering with local organizations. <https://servecity.net/>
