

Ms. Penny Millspaugh

A self-described “dreamer of big dreams”, Penny Millspaugh is committed to building up her community. Penny believes this is best done one person at a time, by creating opportunities for relationships to grow and restoring dignity to those who may feel forgotten or alone. Penny feels her entire life has been a journey to this point in time, and to the creation of Café Hygge, a community café where people will pay-what-they-can for the meal of their choice.

As a seminary trained lay minister turned social worker, Penny has developed a uniquely Christian perspective when it comes to serving others. Influenced by her faith and her family, she aspires to live out her calling as she prepares to open Café Hygge later this summer in Grand Forks.
