

2021 Summer Camp Protocols

Updated protocols and guidelines have been issued by Georgia Department of Public Health. This document is intended to communicate to our Summer Camp guests what they can expect from our staff in the areas of food service, housekeeping, and programming. It also includes recommendations for our campers and volunteers based on those GDPH guidelines. ***THESE PROTOCOLS ARE SUBJECT TO CHANGE.***

We look forward to serving you at Woodland and trust that you will have an 'experience beyond expectations!'

For the safety of our guests & staff:

- **Health screening will be emailed to parents/guardians prior to onsite arrival. Bring completed paperwork with you for an expedited check-in process.**
- **All campers and volunteers will be pre-screened and have temperatures taken immediately upon arrival.** Guests may not enter if they have a fever (100.4 or higher) or have had symptoms of, or exposure to, COVID-19 in the last 10 days.
- Staff/volunteers and campers will be checked daily. ***Anyone who starts exhibiting symptoms or has a fever while onsite must immediately quarantine and leave the property as soon as possible. Post-exposure quarantine protocol* will be followed. (refer to pg. 2)****
- **At onsite check-in, only one parent per camper is allowed inside the cabin.** (Guests who are not fully vaccinated should wear a mask indoors; parents should leave promptly after their camper has checked-in.) If campers are transported as a group, temperatures should be taken prior to leaving the church.
- In order to mitigate the spread of COVID-19, **we will keep campers and volunteers together in the same 'small group cohort'** (those staying in the same cabin and activity groups) **throughout their time onsite.**
- **We will encourage physical distancing between small group cohorts, especially when indoors.** Seating will be spaced further apart in meeting/dining areas. Campers should sit with their small group cohorts.
- Consider having your camper wear a mask when social distancing isn't possible indoors.
- All guests should wash their hands or use hand sanitizer frequently and will be required to do so before eating. Campers/staff should also sanitize after activities.
- **Guests should bring water bottles for use at the water coolers during activities.** (Water fountains have been turned off.)
- Groups should only use their designated recreation areas at their scheduled times (basketball, volleyball, Gaga Ball).
- It's imperative for campers/volunteers to precisely arrive at their scheduled activity/meal time to avoid group overlap.
- **Visitors are highly discouraged.** All guests should remain onsite.

What you can expect from Woodland:

- Woodland is required to provide additional onsite signage with necessary COVID-19 protocols.
- Cabin group sizes have been reduced.
- All Woodland Staff will have daily temperature checks before their shift and will adhere to enhanced hand washing protocols. **Employees who are not fully vaccinated will wear a face covering when social distancing isn't possible.** All staff will wear a face covering while serving meals. Any employee showing symptoms of COVID-19 will be sent home immediately.
- **Hand sanitizer will be provided in all meeting rooms and dining facilities.**
- **All facilities will be thoroughly sanitized prior to your arrival.**
- Restrooms will be cleaned daily with enhanced sanitizing on high contact surfaces.
- High use activity equipment will be sanitized in between groups. Some low elements will be closed at this time.
- All activities will be scheduled in order to ensure that groups do not overlap and that equipment can be properly sanitized. Due to reduced camp capacity, smaller groups will be hosted in the Swimming Pool, meeting/dining rooms, and Gym.
- **For elementary camps, one volunteer will provide silverware and serve condiments/salad bar to all campers. For MS/HS camps, one volunteer from each cohort/cabin will pick up their group's silverware. For all ages, drinks will be pre-filled for campers.** (We will provide serving gloves for volunteers in the dining room.)
- During this time, we will be offering fewer options on the salad bar. Serving utensils will be replaced in between groups. Guests must adhere to social distancing while in line.
- **Guests will be welcomed by table for seconds and will receive a new plate. At the conclusion of meals, guests will place their dirty dishware in the bins provided for each table. One volunteer/adult will return the bin to the dishwashing window.**
- Tables will be spaced farther apart; high contact surfaces and tables will be sanitized in between dining groups. Guests will enter and exit from separate doors in the Dining Room.
- All programs will conclude at 11:30AM with camper pick up. Typical 'closing program' media will be posted online for parents.

***Post-Exposure Quarantine Protocol**

As detailed in Gov. Kemp's Executive Order dated April 30, 2021, the following procedures should be followed when an individual is exposed to COVID-19.

“Post-Exposure Quarantine Protocol” shall mean that, in accordance with Centers for Disease Control and Prevention and Georgia Department of Public Health guidelines, any person who has had close contact (six (6) feet or closer for a cumulative total of fifteen (15) minutes or more) with a person that has or is suspected to have COVID-19 within the past fourteen (14) days is required to either:

- A. Quarantine at their home or place of residence for fourteen (14) days from the date of most recent exposure;
- B. Quarantine at their home or place of residence for at least ten (10) days from the date of most recent exposure, then practice extreme diligence in monitoring for Symptoms of COVID-19, wearing a face covering, and social distancing until fourteen (14) days have passed since the date of most recent exposure;
- C. Quarantine at their home or place of residence for at least seven (7) days from the date of most recent exposure if a COVID-19 test was taken no earlier than day five (5) of quarantine and a negative result is received, then practice extreme diligence in monitoring for Symptoms of COVID-19, wearing a face covering, and social distancing until fourteen (14) days have passed since the date of most recent exposure; or
- D. If the exposed person has:
 - i. Been Fully Vaccinated; or
 - ii. Recovered from illness due to laboratory confirmed COVID-19 infection, has already met criteria to end isolation, and is within ninety (90) days following the onset of symptoms of the initial laboratory confirmed COVID-19 infection or ninety (90) days of the first positive COVID-19 test result if they were asymptomatic during the initial infection;

the person shall not be required to quarantine but shall actively monitor for Symptoms of COVID-19.

If at any time during the Post-Exposure Quarantine Protocol time period a person experiences Symptoms of COVID-19, that person shall seek a COVID-19 test, isolate until test results are received, and proceed in accordance with the test results and Centers for Disease Control and Prevention and Georgia Department of Public Health guidelines.
